CUSTOM MOULDED PRESENTER EAR-PIECES

When you work in a studio, you will most likely need to wear an ear-piece, these made-to-measure devices fit inside your ear, enabling you to hear the directors cues both discreetly and comfortably. They are moulded to fit precisely and securely within your ear.

SOME PEOPLE THAT HAVE USED THIS SERVICE INCLUDE:-

BBC "Watchdog", BBC "Newsround", Jeremy Thompson - Sky News, Rt. Hon. Michael Portillo, "Breakfast with Frost", BBC TV Julia Bradbury Michael Wilson - Sky News, Colin Brazier - Sky News, Ashish Joshi - Sky, Colin Brazier - Sky News, Joey Jones - Sky News, Tulsen Tollet - Sky Sports, Alex Hammond - Sky Sports News, Teletext Holidays TV, Arab News Network, Adel Malek - Contact Middle East, Catharine Quested - Chelsea TV, Maeve Sherlock Refugee Council, Julian Clary, Jamie Theakston & Jodie Marsh.

OUR UNIQUE AND PERSONALISED SERVICE

The usual procedure is we visit you*, either at a studio, or your office. After careful examination of both ears using an otoscope to check if they are clear to proceed, and using a silicone based impression material, our expert will take two moulds of each ear. These impressions, which set in about five minutes, are then sent to a laboratory for making into your earpieces. The whole process of inspection and impression taking lasts about half an hour, and delivery takes about a week.

*Usually within the M25 area, outside the area will incur a travel fee and possible time cost.

ONE FOR EACH EAR

Presenter Promotions normally supply both left and right pair of earpieces.

Why two? Well, there are three main ones that make the most sense:

- 1) Either ear can be used depending on the camera angle and so can be better concealed.
- 2) Ears should be swapped regularly to reduce potential damage from too long exposure, especially during continuous live cable channels.
- 3) If suffering with an ear infection, the other ear can be used.

WE STORE YOUR IMPRESSION

We will keep the impressions for an indefinite time or until they fail-perhaps (Normally around 5 years), or in case you lose your earpiece, so a replacement can be quickly ordered without taking further impressions.

THE COST

The cost, well its £250.00 for the pair of presenters earpieces or £180 for a single ear piece. Replacements cost £90.00 each. They are supplied in a tough presentation case and each come complete with coiled tubing and a collar clip. They are also personalised with up to ten characters using laser engraving. To get your own ear piece please send a cheque, P.O. (payable to Presenter Promotions) or Credit Card details to:- Ear Piece Order Department, Presenter Promotions, 123 Corporation Road, Gillingham, Kent, ME7 1RG. Or print the attached PDF application form, complete it and fax to: (01634) 851077.
